LEGAL BASIS & OWNERSHIP

The network formed by PKFI and the member firms (the Member Firms or Members) is regulated by adherence to an Agreement, (the “Agreement”) between PKFI and individual Members. The Agreement authorises the Members to use the PKF name as defined under specific circumstances, under specific conditions, for specific purposes and in a specific territory, in consideration for which the Members pay a membership fee to PKFI.

PKFI is a private company (the Company) registered in England and limited by guarantee (registered number 03816253). The company’s Articles of Association require a Board of Directors who conduct the business of the company and network. The Board has a strategic and coordinating role but has no executive authority over or involvement in the operations of individual Member Firms.

Each Member Firm is a legally independent entity owned by partners or shareholders and managed in each location. The Company has no financial or management interest in any Member Firm. None of the directors of the Company has a financial or management interest in any Member Firm other than his or her own.

Contractual relations are only formed between a client and the Member Firm engaged by the client; no other Member Firm has responsibility for the services provided and cannot be held liable.

As noted , PKF Malta is a member of PKFI, is authorised to use the PKF name, however, it is locally owned and managed. It is independent in terms of ownership and each member is responsible for its own obligations and liabilities.

In terms of the year under review, the firm’s core connected undertakings include PKF Malta Limited, PKF Assurance (Malta) Limited, PKF Fiduciaries International Limited and GMM & Associates Limited. Apart from each undertaking having an apposite function, these undertakings provide human resources, compliance, and support on all logistics pertaining to the firm.

Network Structure

Member Firms are organised into five geographical regions. Each region has a Regional Board and elects or nominates representative(s) to the Company’s Board of Directors.

There are two international committees responsible for professional and practice standards - the International Professional Standards Committee (incl. Assurance) (IPSC) and International Tax Committee (ITC). A number of additional practice area committees operate both regionally and internationally.

QUALITY ASSURANCE

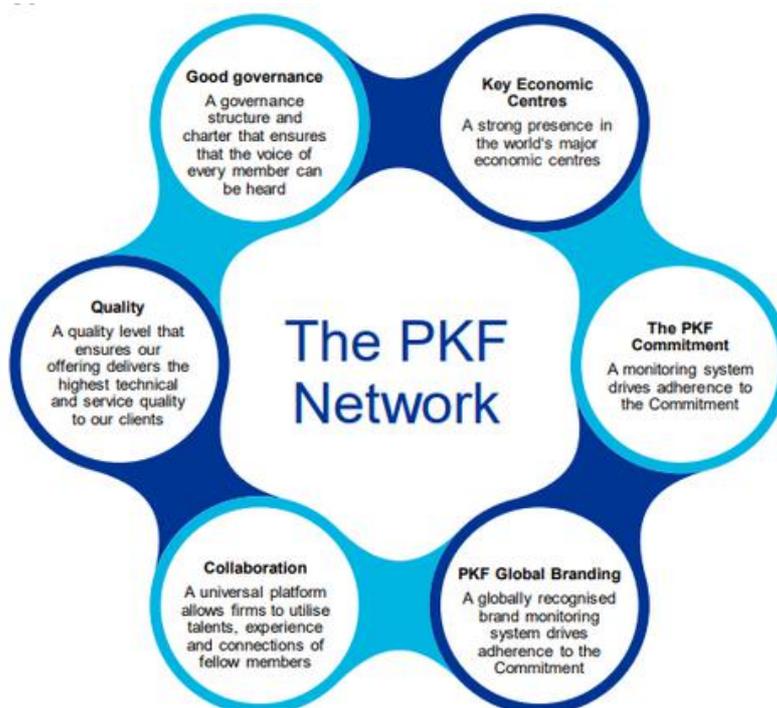

PKFI operates a Global Monitoring Program (GMP) covering Member Firms.

The principal objectives are to ensure that the standards expected for the performance of certain types of professional work by Member Firms are established and communicated to Members, that those standards meet appropriate recognised professional practice requirements at least for transnational and referred work, and that a program of monitoring of compliance with expected standards is operating effectively.

PKFI is a member of The Forum of Firms (the Forum) which was formally established in 2002 as an independent association of international networks of accounting firms that perform transnational audits. The objective of the Forum is to promote consistent and high-quality standards of financial reporting and auditing practices worldwide.

The Forum involves its members more closely with the activities of the International Federation of Accountants (IFAC) in audit and other assurance-related areas. Forum members must demonstrate their commitment to adhere to and promote the consistent application of high-quality audit practices worldwide.

MEMBER FIRMS, COUNTRIES & TURNOVER

PKFI distinguishes between Member Firms and correspondent firms. Correspondent firms do not form part of the network as defined by the International Code of Ethics for Professional Accountants, including International Independence Standards issued by the International Ethics Standards Board for Accountants (IESBA), do not have equivalent rights and privileges or responsibilities of Member Firms, and are covered by the GMP only to the extent of assessing correspondent firms as part of their admission to full membership.

An up to date list of Members and correspondent firms, including the firm names and countries in which they are registered and operate from, can be found on the website www.pkf.com.

The aggregate fee income which relates to the statutory audit of annual and consolidated financial statements for EU EAA Members (excluding correspondent firms) that belong to the PKF Network (see [Appendix 1](#)), as reported in the Firm Compliance Reporting ending 30 June 2021, is US\$ 88.2 million.

Governance Structures

LEGAL & GOVERNANCE STRUCTURES

The firm is managed by a board of directors, whose role primarily is to provide direction to the firm. The board in its strategic position is entrusted to provide the mission, vision and goals of the firm and ensure that the corporate values are adhered to. Our risk advisory teams help navigate through the challenges surrounding governance, risk and compliance.

Directors and officers at the firm; convene on a regular basis to discuss and reach an agreement on relevant matters of the business, such as matters of finance, management, human resources and the overall direction and priorities of the firm. They consistently and systematically assess and ensure the firm's practices are fully compliant with the provisions of the Accountancy Act and all other relevant legislation.

In accordance with the duration of the audit engagement of public interest entities pursuant to the Companies Act (CAP 386) as amended in 2016, audit partners assigned for each client, function on a basis of rotation which limits the number of years they provide audit services to the same public interest entities. In this regard the firm's audit partners adhere to a rotation period as prescribed in the firm's manual.

The firm has in place mechanisms to track and monitor that partner rotation takes place. Familiarity is a threat to our independence and this rotation mitigates the threat of familiarity arising from long association with a client. The Executive ensures appropriate allocation of Partners to audit engagements and an annual review of appointments to PIEs takes place. Furthermore, on an annual basis each and every director officer and employee at the firm, is requested to confirm that they have read, understood and agree, to put in practice the firm's code of conduct.

The responsibility to comply with the code of conduct of the firm, is also communicated through a series of in-house training sessions. These training sessions provide a learning tool, wherein all staff are made aware of the importance and responsibility to adhere to the code of conduct.

CODE OF CONDUCT

The code of conduct of the firm comprises of topics pertaining to the;

- Strategic objectives of the firm
- Ethical policies including the Fundamental Principles
- Independence and annual confirmation of same, including duty of disclosure to Network on transnational audits
- Threats and safeguards and duty of disclosures
- Prohibited activities and conflicts of interests including the duty to report
- Human Resources guiding principles, training, enforcement of quality control policies
- Client procedures including tone at the top
- Anti Money laundering procedures and steps related to reporting
- Complaints review mechanisms
- Conducting of Audits, including planning, PIE's, file structure, security, retention of documents, confidentiality, GDPR, statement of circumstance etc
- Quality control monitoring procedures including underlying principles and reviews
- Remuneration includes all principals and directors who receive an agreed-upon remuneration package consisting of a fixed annual salary which is correspondent to their duties and responsibilities at the firm.

ACCEPTANCE AND CONTINUANCE

An important aspect of making sure that the firm delivers high-quality engagements is to service the right clients and engagements. The firm only accepts or continues an assignment if it has concluded that:

- the appropriate due diligence is in place,
- the client does not lack integrity,
- the firm is competent to perform the services required,
- the client can comply with Ethical Standards,
- addressing the relevant independence and conflict of interest issues,
- ensure to allocate the appropriately experienced and skilled staff.
- The engagement letter is part of the client engagement acceptance process. An engagement letter shall be issued every year.
- The firm also implements policies and procedures to ensure confidentiality in the client's personal information.

New Client Proposals

An evaluation of a prospective client and authorized approval shall precede issuance of any client proposal.

For each new engagement client, a review process is undertaken and documented before the firm can accept the engagement

Quality Control

QUALITY CONTROL

PKF Malta adheres to the International Standard on Quality Control (ISQC) which ensures high standards of quality control in the provision of professional services for chartered accountancy professions. The ISQC 1 deals with firms responsibilities for its system of quality control for audits and reviews of financial statements, and other assurance and related service agreements.

Additionally, as a member of PKFI, we are required to comply with the International Professional Standards Manual ('IPSM), which is also consistent with the ISQC 1, yet incorporates further network-wide compliance matters.

The quality control policies and procedures are a key part of PKF (Malta)'s internal control system. The firm's internal quality control of the auditor consists primarily of understanding this control system and determining — through interviews, walk-through tests, and file inspections — whether, and to what extent, this control system is operating effectively.

It also includes developing recommendations to improve the system, especially if weaknesses are detected or if professional standards and practices have changed.

PKF Malta's statement on the effectiveness of quality controls and independence aims to provide a system of quality controls with reasonable assurance that the Firm, Partners and Employees comply with professional standards with the applicable laws and regulations, thus ensuring that the work conducted is of consistent high-quality standard and that audits issued by the Firm comply with the applicable laws and regulations.

Based on the above statement, PKF Malta declares that its quality control system and monitoring have operated effectively and are effective in maintaining independence. PKF Malta further declares that the practices have been subject to internal review, conducted and finalised on 28th December 2021.

Safeguards that act as monitoring mechanisms for PKF Malta's practice include:

- Internal and external education and training programs;
- Requirements that external professionals engaged by PKF (Malta) know, understand, and enforce the practice's policies and procedures for engagement reviews, quality control reviews, and engagement leader approvals;
- A policy statement instructing any staff not to release any engagement financial statement information of any kind unless all necessary approvals are signed off;
- PKF (Malta)'s standard engagement completion and release control system, which outlines the required approvals and sign-offs by engagement type, function, and individual responsibility; and
- Instructions to any staff to advise PKF (Malta) upon observing significant or repeated minor breaches of the auditor's policies or protocols.

QUALITY CONTROL

In accordance with Article 18(2)(d) of the Accountancy Profession Act, the firm's principals confirm with a reasonable level of assurance that they are satisfied with the effectiveness and proper functioning of the internal quality control system in place for the firm.

One of the ways we demonstrate our commitment to quality is by ensuring all salaried partners have objectives around quality. In this way, we are able to reward Partners an annual bonus for those who meet our expectations of high quality, including as evidence through quality monitoring reviews.

PKFi operates a Global Monitoring Program (GMP) covering Member Firms. The principal objectives are to ensure that the standards expected for the performance of certain types of professional work by Member Firms are established and communicated to Members, that those standards meet appropriate recognised professional practice requirements at least for transnational and referred work, and that a program of monitoring of compliance with expected standards is operating effectively.

PKF Malta effectively undergoes a network monitoring programme that includes adherence to and compliance with PKF policies and procedures. Risk-based quality review as per the Global Monitoring Program, performed by the regional quality and compliance inspectors. As member firms, we also form part of the global compliance monitoring, by the International Professional Standards Committee. The Global committee also provides support, from the Assurance Strategy Group (ASG) and the Risk Advisory Services (RAS) and an ISQM task force.

PKF Malta in addition to its internal quality control monitoring, and the global monitoring programme, it is also subject to inspection by the Quality Assurance Unit of the Accountancy Board within the Ministry of Finance. The latter carried out its Quality Assurance Oversight Committee review in July 2014. The last Audit Compliance Review was carried out internally on the 22nd December 2020 by an external quality control reviewer approved by the Accountancy Board. The Member Firm Compliance Report is issued annually, together with an annual Firm Profile Report. A PKFi inspection was carried out in December 2020 under the PKF International Global Monitoring Program.

The purpose of the inspection was to review the adherence to professional standards in compliance with:

- The IESBA Code of Ethics for Professional Accountants
- The International Standard on Quality Control 1 (ISQC 1)
- International Standards on Auditing issued by the IAASB or equivalent
- For Member Firms, these requirements are set out in the PKF International Professional Standards Manual (IPSM).

Inspections performed by others, such as regulators or PKF International, are not a substitute for the firm's own internal monitoring, which as required by ISQC 1, need to take place cyclically. In accordance with Article 26 of the Audit Regulation, PKF Malta is reviewed periodically by external regulators and/or professional bodies.

Independence Practices

INDEPENDENCE

The independence of statutory auditors is fundamental to the public confidence in the reliability of statutory auditors' reports. It adds credibility to published financial information and value to investors, creditors, employees and other stakeholders.

Independence is also the profession's main means of demonstrating to the public and regulators that statutory auditors are performing their task at a level that meets established ethical principles, in particular those of integrity and objectivity.

Independence is the underlying basis of the firm's fundamental principles of professional behaviour & professional competence, objectivity, Integrity and Confidentiality which are covered within the Firm's Quality Control Manual and accordingly apply to all professional employees within the Firm.

The policy matter and the related procedures are implemented at four levels.

Employee On-boarding

Upon joining the Firm, each professional is subject to mandatory orientation session, which covers the requirements on the Firm's Quality Control Manual including independence, Money Laundering and Counter-Terrorist Financing. Upon completion of the orientation, the professionals are required to confirm their understanding and compliance with the same.

Annual Compliance Confirmation

All employees of the Firm are subject to an annual compliance confirmation whereby each employee confirms their understanding and compliance with the Firm's independence requirements. The annual confirmation also captures any existing or potential conflict that may impair their or the Firm's independence.

Engagements

In addition to these confirmations, independence confirmation is also secured on an engagement by engagement basis as well.

NETWORK

At the heart of PKFI's approach to managing independence is the Transnational Entities Database (TREND), part of the PKF Network's proprietary platform for global coordination and communication. A secure central repository of Member Firms' transnational client details accessible by all PKF firms, the database assists in detecting potential cross-border conflicts involving PKFI firms. The transnational entity listing (including transnational audits) must be continuously updated and its accuracy confirmed annually.

Each year, members and staff at PKF Malta sign a written confirmation to identify any potential threats to independence and to evaluate whether compliance with the fundamental principles as identified in the Accountancy Profession Act has been adhered to. It is the policy of the practice that in case of doubt, the assigned partner consults with the Accountancy Board and/or the Malta Institute of Accountants for their recommendation. These recommendations are considered to be final.

Moreover, the firm actively and diligently seeks to identify any potential situations which may threaten the practice's overall independence. Where such situations are identified, the firm takes all necessary actions to uphold its independence and mitigate any risks, whether by applying the necessary safeguards or through a refusal to engage.

The firm conducted an internal review of its independence compliance as of 30th June 2020 and the report was issued on the 6th August 2020.

PKF Well-being week, culminating in Global Wellness Day, embracing Well-being at PKF in line with covid restrictions, with initiatives such as virtual challenges and competitions.

CORPORATE SOCIAL RESPONSIBILITY

At PKF Malta, we are wholeheartedly committed to upholding our firm's values by giving back to the community.

Supporting our communities is at the heart of our values. Our corporate social responsibility programme encompasses various areas including participating in various community and social programmes, sports and local clubs and charitable donations.

With covid 19 restrictions and measures in place, we still found time to give back to the community by supporting various local NGOs such as ALS Malta, Breast Cancer Foundation, Foodbank donation drives, amongst others.

We continued creating awareness for International women's day to forge a sense of an inclusive culture. Promoting World Mental Health Day to end the stigma around mental health. And finally, we promoted Pink October and Movember to remind staff & our followers of the importance of regular medical health checkups.

October & November mark the #PinkOctober & #Movember Movements. In Malta, around 300 women are diagnosed with breast cancer each year. If breast cancer is detected at an early stage, there is a greater chance of successful treatment or recovery.

So pass on this message to your mum, sister, cousin, family members. But cancer can also effect men!

Although this is a fun activity may this also serve to remind you to get checked. Enjoy the cupcakes! ... See more
